

MICROSCOPY WORKSHOP FOR GENERAL DENTISTS

*Discover techniques and tricks to
optimize your practice*

PRESENTED BY: DR. GLENN VAN AS

October 4th and 5th, 2018
The Hague | Netherlands

Learn to achieve greater proficiency through successfully integrating the microscope into everyday use. This interactive, hands-on course teaches dental microscope users practical skills that increase treatment efficiency. Attendees will be equipped with in-depth knowledge to use the microscope for all procedures, in every area of the mouth.

HIGHLIGHTS:

- LEARN FROM ONE OF THE LEADING DENTAL MICROSCOPE EXPERTS
- PRACTICE REAL-TIME TREATMENT
- WORK DIRECTLY ONE-ON-ONE WITH INDIVIDUAL DENTAL MICROSCOPES

INSTRUCTOR

Dr. Glenn van As graduated in 1987 from the University of British Columbia and owns a private general practice in North Vancouver, B.C., Canada. He was an early adopter of the dental microscope and has been exclusively utilizing it in his practice since 1997.

Dr. van As is a co-founder and past president of AMED. He is passionate about microscopy imaging and a leading advocate for incorporating photo and video capture into the practice. Dr. van As has lectured worldwide and teaches on a regular basis.

COURSE OUTLINE

DAY 1

**FRIDAY, OCTOBER 4TH, 2018
(9AM – 5PM)**

Discuss the advantages of using the operating microscope including improvements in precision, ergonomics, communication and documentation.

Work on mannequins to prepare first teeth in the upper anterior sextant (veneer and crown preps) and in the posterior maxilla.

Learn the 5 tricks to setting up the microscope for ideal viewing in all areas of the mouth and clinical tips to shorten the learning curve.

DAY 2

**SATURDAY, OCTOBER 5TH, 2018
(9AM – 5PM)**

Review of the material from Day 1.

Continue hands-on workshops to finish the upper posterior preparations and then move to the lower anterior sextant followed by the lower posterior teeth.

Learn how to document clinical procedures with the dental microscope and integrate the digital microphotography and videography.

Discuss the ergonomics of the microscope-centered practice and the best operatory design to optimize daily microscope use.

The course language is English.

TRAINING VENUE

CENTRE INNOVATIVE DENTAL EDUCATION
